

Hello, my name is Tessie Liz. I am a Christian Constitutionalist with knowledge that must be spread throughout America. My personal friend and teacher, now my fiance, Barry Croft, has taught me everything written in this document. Barry Croft, a fellow Christian Constitutionalist, has been falsely accused and imprisoned because of the knowledge he possesses about governmental corruption. This endeavor to shut him up has become futile because thankfully, he passed some of his knowledge on to me. Now I can be a vessel to further the truth by exposing governmental treason.

It very clearly states in Article 1 Section 1 of the Constitution that “All legislative Powers herein shall be vested in the Congress of the United States, which shall consist of a Senate and House of Representatives. Looking at the bureaucratic dictatorship that we now live in, it is evident that legislative power has been illegally delegated to administrative agencies. The non-delegation doctrine addressed these issues, but are not currently being followed. This leads into the first infraction, the illegal delegation of executive authority to agencies.

It is seen in **Title 3 Section 301 of the United States Code** “General authorization to delegate functions; publication of delegations.” This section of the United States Code illegally gives the President the power to delegate any functions vested in him through the law, and pass it to any agency, without approval or ratification.

To add insult to injury, in **USC Title 5 Section 903**, the President has been given the power to transfer a whole or part of an agency, abolish a whole or part of an agency, consolidate and coordinate a whole or part of an agency, and the authorization to delegate any of his functions. This segues into the President having the ability to create joint agencies, which the **Defense Logistics Agency** has started working on a few years ago. “On February 18, 2021, The Defense Acquisition University spoke with two Defense Logistics Agency leaders to discuss their efforts to unify the interagency with agreements from the Department of Health and Human Services and the Federal Emergency Management Agency, integrating procurement and industrial base expansion, and best practices for succeeding as a joint agency.” The act of combining these agencies together will develop a dictatorship; With all powers merged into the executive branch, any chance of justice through checks and balances is vanquished, forming a bureaucratic dictatorship.

It also states in **USC Title 5 Section 559** the words “to diminish the Constitutional rights of any person” has been omitted as surplus usage. Omitting these words demands the general public to only assume that a statute or law will not act in derogation of the Constitution. Obviously, this cannot be assumed. It is extremely evident that we must overturn and abolish this bureaucracy, but those actions have also been prohibited in the USC.

**USC Title 10 Section 246**, under “Classes of Militia,” Constitutional language has been perverted by calling the military, the “organized militia.” The Constitutionally proper label for the military, all armed federal agents, is “Standing Army.” There is an evident and distinct difference between a paid mercenary and a righteous man willing to leave safety to provide it to those around him. If you scroll down to **USC Title 10 Section 252**, you will see that if the President deems any person a part of a rebellion against the government, he may call into action all or any of the federal agents to suppress the rebellion.

The **military oath of enlistment** has these federal agents swearing to operate under all legal interpretations of the Constitution. They must also realize that “the individual, group, or nation which threatens us could include American citizens...” This leads into the **Department of Homeland Security** releasing their National Terrorism Advisory System, summarizing that all who propagate what they

consider, mis, dis, and mal information, and those who undermine the public trust in the U.S. government are to be considered terrorists. What must be done? It is evident that this defacto code is majorly perpetrated by and through lawyers misrepresenting the laws of a Constitutional Republic. I suggest the start of a class action lawsuit against the **American Bar Association**. With the absence of justice, there is no way for We the People to win. We must abolish this junta society, before we are engulfed in tyranny, becoming slaves in the matrix of the bureaucracy.

Each justice, agent, US attorney, etc violates their oath by acting on the USC, but swears to uphold the Constitution. Anyone who takes the oath of office and rules off of the USC will be directly breaking their oath; an offense equivalent to treason.

### UN AGENDA

The UN is a United States created world administrative agency. Below, is a portion that states that any sort of intolerance defined by the world government will be deemed as terrorism. Any sort of belief that contradicts their world agenda will be a punishable crime.

“OP36bis. and requests Welcomes the report of the Secretary-General on, “Terrorist attacks on the basis of xenophobia, racism and other forms of intolerance, or in the name of religion or belief” as an important step in consultation with Member States, to developing a greater understanding of the motivations, objectives, organization and the threat posed by such groups within the global terrorist landscape, including new and emerging threats, and to help to build, upon request, effective counter-narratives, and capacities and strategies in this regard, and to report thereon in advance of its seventy-seventh session;”

To easily find this section of the UN Global agenda, follow these steps. Open up your google search engine and type “UN 2024 Agenda.” Click on “Implementation.” Scroll down to see “Find a full list of mandates here.” Find the dropdown that says “The United Nations Global Counter-Terrorism Strategy: seventh review” Select the “Zero Draft.” Under page 13 you will find the portion above. I give these directions in case the link ceases to work.

#### NOAHIDE & UN

“The Institute of Noahide Code is a UN-accredited NGO dedicated to spreading awareness of the Seven Noahide Laws, **which all peoples of the world are obligated to follow.**”

The penalty for violating the Noahide laws is spelled out in the Encyclopedia Judaica on page 1192. "Violation of any one of the seven laws subjects the Noahide to capital punishment by **decapitation**." The UN pledges Allegiance to these laws.

On March 20, 1991 President Bush, Senior, signed into law a Congressional Joint Resolution entitled, "A Joint Resolution To Designate March 26, 1991, As Education Day, USA" In this statute, understand that this is a congressional proclamation of allegiance and obedience to the Noahide laws.

UN International Covenant on Civil and Political Rights "(5) That the United States understands that this Covenant shall be implemented by the Federal Government to the extent that it exercises legislative and judicial jurisdiction over the matters covered therein, and otherwise by the state and local governments; to the extent that state and local governments exercise jurisdiction over such matters, the Federal Government shall take measures appropriate to the Federal system to the end that the competent authorities of the state or local governments may take appropriate measures for the fulfillment of the Covenant." It states under their Declaration, "(3) That the United States declares that the right referred to in article 47 may be exercised only in accordance with international law." Well according to Article 47, "Nothing in the present Covenant shall be interpreted as impairing the inherent right of all peoples to enjoy and utilize fully and freely their natural wealth and resources." This right may only be exercised according to international Law, and those laws are the Noahide laws. National sovereignty cannot be delegated to any other authority, and it most certainly cannot be delegated to international authorities.

Email written by Barry Croft:

Hello! My name is Barry Gordon Croft Jr. Regardless of the case the administrative "deep" state brought against me, and the slander of their lap dogs (mainstream media), I still want to warn my beloved country, and her people, about the methods already in place to take over your freedom. The USC, or the United States Code, has already completely rewritten how your government works! Our Constitution, and our rights, have been taken from us with a process known as "Administrative Promulgation." In Title 3, Section 301 "Delegation of Authority," you will find that administrative department heads are given the same power as our president, "without needing permission, or authorization." This is not something that any branch of the government,

(executive, legislative, or judicial), may legally by the Constitution, do! It is done by “Administrative Promulgation.” The reason I’m pointing this out is because nearly all of the USC is made up of this promulgation. The “Elections and Voting” title dictates which machines the states may use for voting if they want to receive their budgeted allotment from the government. The judicial branch of government is so unimportant, that the Title 28 “Judicial Procedure,” isn’t even in the first five titles! My reason for pointing this out is whether we have Trump who was surrounded by “swamp things/ deep state agents,” or creepy, sleepy Joe, the administrative “deep” state running our country! With Trump indicted (bogus case,) and threats of impeaching sleepy Joe, the administrative “deep” state (FBI/CIA) will most assuredly seek to create violent clashes amongst democrats and republican citizens, as they did leading up to the 2020 elections. The violence doesn’t even have to be real, they can pay actors with chase banks envelopes full of cash, have the police “stand down,” and invite the mainstream media to convince the world that America is at civil war again. This will allow the administrative “deep” state, and all their globalist department heads to invite the UN to “help restore order.” Oh yeah, and the recent “railroad accidents” that are placing toxic chemicals in agricultural areas, with almost tactical precision needs to be very thoroughly investigated by someone other than the administrative “deep” state! Please do not brush this information off! Research amongst your brightest colleagues how unconstitutional the USC is, and the “Reorganization Plans” of the executive branch, you will find the “why and how” of our country’s current situation. The codification, and creation of the vast all powerful administrative state, is an insurance policy built in by the globalists, to protect investment shortly after the Great Depression of 1929. I beg you to research what I’m saying! Presidents, congress, judges, have all been used to make this illegal process take control of our Constitutional Republic! Please research it! And for the record, I was involved in a plot to kidnap the Michigan governor, as much as Iraq was to ram planes into the World Trade Center. Damn shame what the administrative “deep” state can manipulate the country to believe with their mainstream media! Please, please, from an American Constitutionalist that loves his fellow Americans and their freedom, please research these words! Thank you for reading, God bless and long live the Constitutional Republic!

# THE OATH OF ENLISTMENT

Title 10, US Code; Act of 5 May 1960, with amendment effective 5 October 1962

To preserve this nation, I will uphold and champion its provisions while shielding and protecting it to the utmost of my capabilities.

## "Against All Enemies, Foreign and Domestic"

I will oppose all those who are hostile to the provisions of this Nation, and who seek to change it by threat or action. This includes those who seek to impose their government or philosophy which is contrary to our Nation's beliefs. I realize that the individual, group or nations which threaten us could include American citizens or foreigners, or a combination of both.

## "That I Will Bear True Faith and Allegiance to the Same"

In both word and deed, I will continue to express my devotion and loyalty to our constitution and government. I have an obligation to uphold it and will do nothing which could be interpreted as possessing a lack of confidence or belief in our nation.

The Commander in Chief holds ultimate authority to lead the United States Military as a means to protect our nation and our way of life. As outlined in our laws, the military serves the democratically elected leader of this nation.

## "And the Orders of the Officers Appointed Over Me"

I acknowledge that officers are placed in positions of leadership over me and are responsible to maintain order and discipline in a military environment, while executing duties to accomplish assigned missions and tasks.

## "According to Regulations and the Uniform Code of Military Justice"

As the military operates worldwide, and within unique circumstances, there is a special system of laws and courts to help maintain good order and discipline. This system protects my rights while a member of the military.

## "So Help Me God"

With a belief in a Supreme Being, I make this covenant of conscience and invoke assistance of a higher power in fulfilling the obligations of this oath to society.

**This oath is made of my own free will, and not under false pretenses.**
